Our STAGE and STEM Academy curriculum pathways offer an extraordinary opportunity for students to dive deeper into their passions, whether they are budding performers or future innovators.

These pathways provide additional lessons and students stay after school once a week to work on exciting, hands-on projects that go beyond the standard curriculum.

STEM ACADEMY

- Engage in hands-on, project-based learning in science, technology, engineering and mathematics.
- Develop critical problem-solving skills and explore future career opportunities.
- Participate in extra-curricular projects and competitions.
- VEX Robotics: build, code and customise robots to compete against other schools in national competitions.

STAGE ACADEMY

- Immerse in performing arts with specialised lessons in drama, music and dance.
- Perform in school productions and showcases.
- Collaborate with experienced professionals and peers to hone your craft.
